## CAREER OBJECTIVE

Hi, I am a software developer with over two years of experience in microservices, back-end, and front-end development. I am genuinely passionate about clean coding and software architecture.

## Experience

Full Stack Developer  
Revature  
Remote | Mar 2021 - Jan 2023

- Led full cycle of development for Macy's Technologies, integrating front and back-end aspects.
- Enhanced existing software, boosting performance and implementing new features.
- Utilized Java and React for robust, scalable application development.
- Collaborated with cross-functional teams to deliver quality software within set deadlines.

Full Stack Developer  
Seta Solutions  
Remote | Jan 2023 - Current

- Managed application development end-to-end, with emphasis on back-end solutions.
- Authored efficient and testable Java code in the Spring framework.
- Ensured harmony between back-end functionality and front-end user experience.
- Implemented unit tests to validate application functionality and prevent regressions.
